Our Newly Included Instructor

Inst. Melike ŞAŞMAZ started to work at Istanbul Aydın University - Anadolu BİL Vocational School of Higher Education – Machine Program on January 25, 2021.

Inst. Necdet YAKUT started to work at Istanbul Aydın University - Anadolu BİL Vocational School of Higher Education - Machine Program on March 1, 2021.

In-house Assignments

Machine Program Director Inst. Serkan GÖK has been appointed as the Deputy Director of the Defense Industry Technologies Application and Research Center at Istanbul Aydın University.

Inst. Serkan KILIÇTEK has been appointed as a Project Specialist at Istanbul Aydın University, Defense Industry Technologies Application and Research Center.

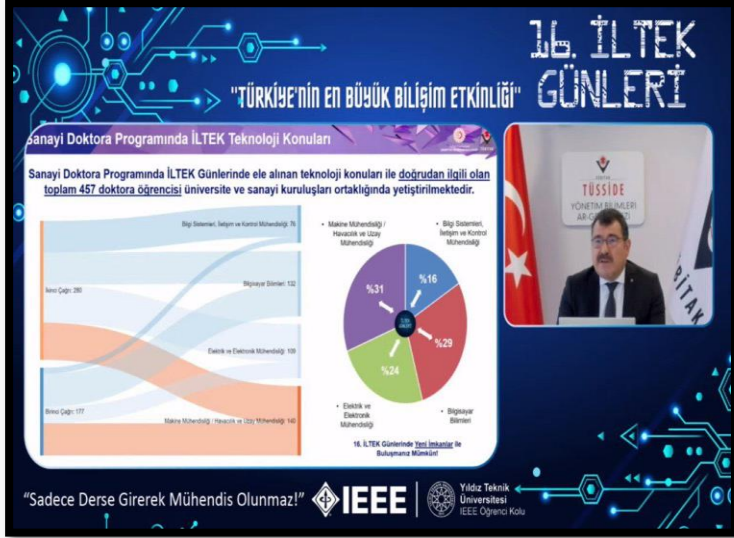

CSWA (Associate) and CSWP (Professional) exams with international validity were conducted by Defense Industry Technologies Application and Research Center Deputy Director Lect. Serkan GÖK 3 times, at different times, for students, graduates, academic and administrative staff.

In these exams, 80 people took the CSWA exam and 32 people took the CSWP exam, and a 50 percent success rate was observed.

Machine Program Director Inst. Serkan GÖK has participated in the 16th ILTEK Days digital fair held on March 29-30- 31, 2021.

Machine Program Director Inst. Serkan GÖK has attended in the "Defence Industry Summit" event organized by Yıldız Technical University on March 29-30, 2021.

Our department Inst. Serkan KILIÇTEK made a live broadcast introducing our university for our 1st year students who did not have the opportunity to come to our university due to Covid-19, on 10.03.2021. Live broadcast has also been uploaded to our youtube page(IAU MACHINE PROGRAM) so that those who could not attend our live broadcast can watch it.

When our students come to our university, were shown they can use how the library, laboratory and classrooms with this live broadcast. In this way, our students who could not come to the university during the pandemic were informed about our university and the opportunities it offers.

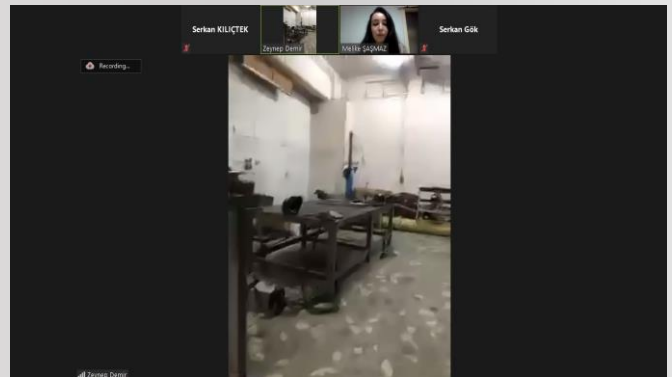

OUR WEBINARS

Istanbul Aydın University-Anadolu Bil Vocational School of Higher Education- Machine Program, webinars have been started to be organized with the companies where our students who work and suitable. Live broadcast has also been uploaded to our youtube page (IAU MACHINE PROGRAM) so that those who could not attend our live broadcast can watch it.

Thermo Engineering and Heating Equipments General Manager Oğuz YİĞİTGÜLSÜN and ABMYO Department of Machine Program Director Inst. Serkan GÖK and Inst. Melike ŞAŞMAZ, Inst. Serkan KILIÇTEK moderated, our first work placement webinar called "Heating and Cooling Devices Production Methods" was held on 11.03.2021.

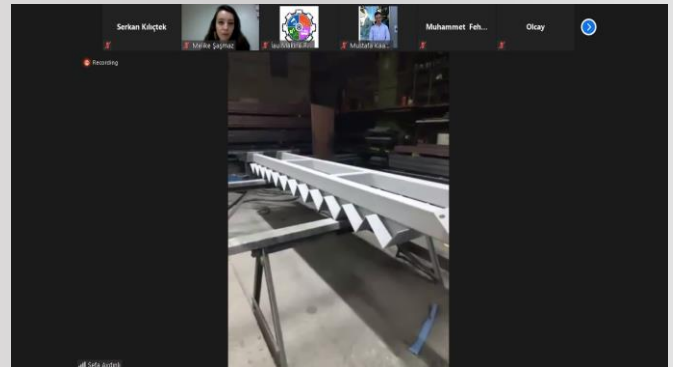

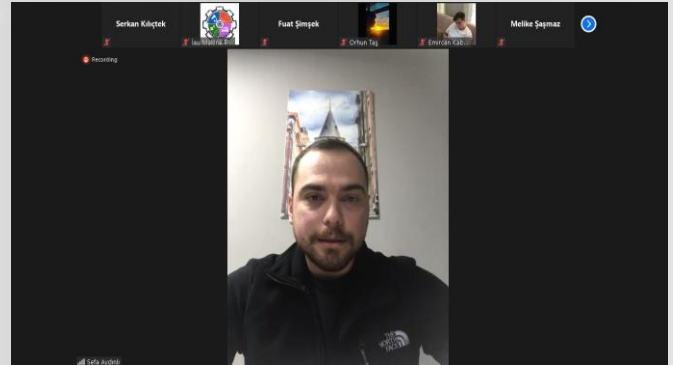

OUR WEBINARS

ERGIN Machinery Company, Work placement student Sefa AYDINLI and ABMYO Department of Machine Program Director Inst. Serkan GÖK and Inst. Melike ŞAŞMAZ, Inst. Serkan KILIÇTEK moderated, a webinar named "Production Processes of Industrial Multi-Storey Steel Structures" was held on 20.03.2021.

In the webinar, where the design and manufacturing process of steel structures specially produced for the industry was mentioned, the machines used in the creation of these steel structures were shown, and a specially produced steel ladder was shown during the live broadcast. This webinar has been uploaded on the Iau Makine Programı Youtube page so that those who cannot attend the live broadcast can watch it.
